

FORM A

Transgenic Mouse Request Form

Investigator	Lab Contact Person
Phone	Email
FAX	Campus Address
Funding Source	Account #
Animal Approval	PACUC #
DNA Construct Name	Date Digested/Construct Size (kb)
IBC Approval	Reference #

Give a brief description of the DNA construct to be injected. Include all elements and indicate if any of them have been previously used in transgenic mouse production (provide references). Also indicate the expected expression patterns and any health concerns of which you are aware. Finally, provide a plasmid map showing relevant restriction sites and locations of probes.

Give a brief overview of the project and its aims. Include cancer relevance. Give references (1-2) if appropriate.
